DALY CITY BOND ELECTION DATE SET ON MAY 25

Total Cost Of Seven Civic
Improvement Projects
Is \$217,830

Details for the calling of a Daly City bond election on May 25 will be discussed by councilmen in an adjourned meeting at the city hall this evening. An ordinance setting up precincts for the election, specifying costs of each project and announcing the date of election is scheduled for consideration.

Total of bonds to be voted upon is \$115,000. Federal and state funds in the amount of \$102,830 will be available to complete the projects providing the bonds are approved. Each proposed improvement is to be voted on separately. Total cost of each project is: \$3000 for extension of the fire alarm system into the newly annexed Colma area, \$43,700 for extension of the municipal water system into the same district, \$82,330 for the development of Vista Grande Park, \$15,000 for the acquisition of a playground site in Crocker Tract, \$53,000 for construction of a new city hall and \$20,800 for the construction of a new library.

FULL SUPPORT

The council is unanimous in its approval of all the projects and local civic leaders have pledged full support to the improvements. Reports from several quarters have come to The Record indicating that nearly all Daly City residents are anxious for the proposals to be carried to completion.

CELEBRATION OF PUBLIC SCHOOL WEEK IN APRIL

Program Slogan Is "Cross
The Bridge From Home
To School"

"Cross the bridge from home to school, Public Schools Week, April 26 to 30." With this as its official slogan, preparations for the eighteenth annual observance were underway this week under the direction of General Chairman James Leo Halley.

The slogan was selected by a committee of judges from hundreds submitted by school children in a contest sponsored by the Public Schools Week committee. It was authored by eleven year old Ralph Grano of John Muir School.

Programs, open house events and classroom demonstrations will be held in practically every school during the celebration.

Parent Teacher Associations, veteran organizations, fraternal and service clubs are participating in Public Schools Week.

Auto Owner Sleeps, Car Stolen, Found

Police recovered, early Tuesday morning of this week, the stolen automobile of E. Desmond, Irvington street, before he knew it was missing.

The boys in the car, Earl Ward, 13, 600 Niantic street, and Paul Jones, 14, 90 Douglas street, were taken into custody by officers on Junipero Serra boulevard at 3:30 a. m. and turned over to juvenile authorities.

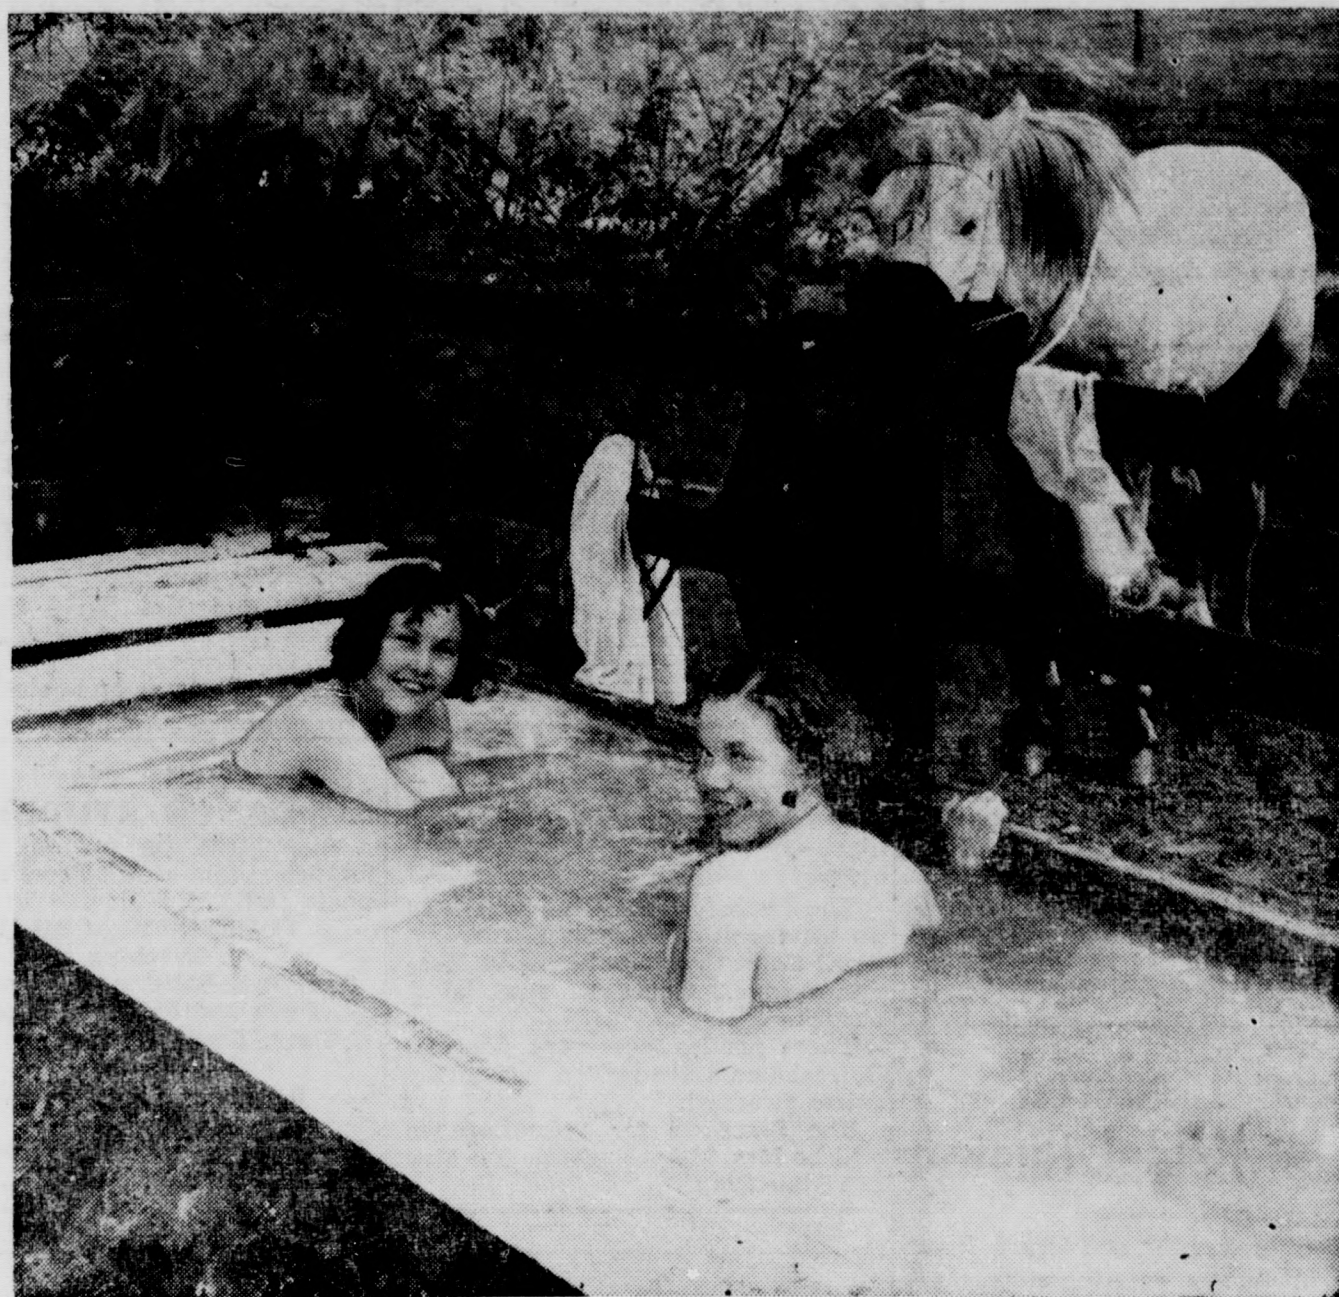

Because Desmond had purchased the automobile only a few days ago and the former registered owner could not be located, police were unable to inform him that the car had been found.

He found out about it when he came into the police station at 9 o'clock in the morning to report that the car had been taken from the front of his home, where he parked it the night before.

BUYS TWICE

After collecting insurance on a radio stolen from his automobile Ray J. Woods of Kansas City went shopping. He bought a second-hand radio, had it delivered to a garage for installation in his car and discovered he had bought his own radio back. Jack Gray, pawnshop manager, and his Negro handyman were arrested.

Equestriennes Freshen Up For First Cal. Rodeo

Pictured as they used a horses' watering trough to "spruce up" in, rodeo "nymphs" Evelyn Jones and Margaret Gainsford, both candidates for queen of the King City, Cal., Stampede, are seemingly unimpressed by the thirsty horse in the background. The stampede will be the first of California rodeos and will be held May 15-16. Many unusual features are planned for the event, but wild cow milking is believed by many to be the most amusing of the scheduled contests.

Better Fire Fighting Co-operation Had

With experience gained from the million dollar Butano Forest fire disaster of last fall, plans for the better co-ordination of fire fighting forces of San Mateo, Santa Clara and Santa Cruz Counties during the coming dry season were being formulated this week.

County Fire Warden Bert L. Werder attended a meeting of fire-fighting officials of the three counties, yesterday and today, at Big Basin, Santa Cruz County.

At the same time Werder announced an agreement between the county and the emergency conservation works for the use of civilian conservation camp crews during the 1937 fire season. The area of responsibility, which formerly ran from the Santa Cruz County line to Beresford has been enlarged from Beresford to Burlingame and westward to Rockaway Beach.

The widow and son of the late John T. Doyle, former Daly City chief of police, had on file, Friday of last week, in Superior Court at Redwood City a damage suit of \$100,000 for the death of their husband and father, which occurred December 19.

Mrs. Mae S. Doyle and son Thomas, 16, are suing the Market Street Railway Company, Luther Milliken, motorman, and Alfia Penise, conductor. The kin charge that the alleged carelessness on the part of the street car company was responsible.

Season Of Year And Return
Of Prosperity Drives
Enthusiasm To Peak

Leaders in the Golden Gate Bridge Fiesta are optimistic.

They predict it will be the greatest celebration ever held in the San Francisco bay area.

Excepting the Panama-Pacific Exposition in 1915, which is not comparable, the liveliest fete in the history of this territory was the first Portola which celebrated a wonderful achievement of modern civilization, the resurrection from ashes debris of 1906.

The celebration in honor of the completion of the bay bridge was a fine spectacle, but the season, November, and the stress of the election just closed then, prevented the city from doing its giddiest best in the way of festivity.

HELD IN MAY

But the Golden Gate Bridge fete comes in the merry month of May, comes at a time ripe with return of prosperity and honors a magnificent engineering and public achievement, the spanning of the Golden Gate.

The time, place and occasion are propitious for a splendid event.

Everyone is supporting the festival with funds and ideas to make it a gorgeous success.

GEORGE BERNARD SHAW WILL VISIT JEFFERSON HIGH

Ten Act Marionette Show Of
Federal Theaters To Go
On Local Stage

George Bernard Shaw will visit Daly City Wednesday afternoon, April 28. He will make an appearance at the Jefferson Union High School Auditorium at the head of his own company, a troupe of marionettes. Shaw, himself, is a marionette in this instance.

The occasion will be one of the first "on the road" dates of the traveling marionette company of the Federal Theaters.

TEN ACTS

The performance is booked as "Marionette Varieties." It consists of nearly ten acts, each a separate and individual characterization of some world celebrity or type. Besides Shaw, who will act as master of ceremonies and introduce the various acts, there will be the Dionne quintts in a special "Good Morning, Daly City," tap dance with topical patter; Toscanini, the great composer and director, at the head of a big philharmonic orchestra; Mme. Tilly, coloratura soprano typical of all coloratura sopranos of a few years back; Bill Robinson, king of tap dancers, in his own routine; some one act sketches that have won wide acclaim, and La Tour Brothers, great French acrobats whose technique ended all technique for the knights of the perspiring palm and handkerchief jugglers.

It's a great show from beginning to end. It's the first show on the road in the marionette division and if the people of Daly City like it others will be brought on at a later date.

S. M. Flier Cited For Low Cruising

Paul Mantz, former San Mateo flier and now technical adviser on flying for Amelia Earhart, was cited, Monday of this week, to the Bureau of Air Commerce by deputy sheriffs of Los Angeles for allegedly flying low over Santa Anita.

Deputies reported they had received many complaints from Arcadia residents about low flying and stunting. The officers said they went to the track and sighted a plane flying about 150 feet off the ground. They took the numbers of the plane and reportedly found it was registered to Mantz.

Mantz said a low hanging fog had forced him to fly nearer the ground than customarily, but denied he had been stunting.

ALCAZAR SHOW SWINGS IN WITH 'SWING PARADE'

Two Big Hits To Be Produced—Marionettes At Columbia

The San Francisco Federal Theater Project finds itself the possessor of two hits, two runs and no errors this week with two major openings in down town theaters.

"Swing Parade," a musical show so lavishly set as to approach extravaganza proportions with new music, twenty scenes, a beauty ensemble, lots of comedy, directed by Max Dill, opening Thursday night at the Alcazar, and "The Emperor Jones" by Eugene O'Neill, one of America's foremost playwrights, presented at the Columbia with Ralph Chesse's marionettes and Mr. Chesse himself interpreting the title role, make up the huge program of the moment.

Both productions represent the highest point of attainment of the Theater Project since its organization more than a year ago. "Swing Parade" is the work of many months by nearly a hundred actors, theater technicians and the well known director and his assistants.

"The Emperor Jones" is seen with an entirely new setting of figures and scenery constructed especially for the current showing. It is the first time the play has been presented in a major legitimate theater in the West.

Both productions have had the benefit of a heavy advance sale. It will be the last time the marionettes will be seen in a local theater under Federal Theater auspices. With the closing on April 24 of "The Emperor Jones," repertoire of plays will be booked for road showing.

OUT OF THE ASHES

A city asleep, just before dawn, on the morning of April 18, 1906. It seems no different from any other morning. But it is destined to be one long remembered in California.

Just before dawn, and then . . . Suddenly the earth lurches. There is a jarring polt that all but flings people from their beds. For many seconds the rocking motion continues, shaking down buildings, splitting the streets. Then all is quiet. And then the bedlam of a populace terror-stricken by catastrophe.

This week, thirty-one years later, old timers are telling stories about the San Francisco earthquake, about the fire that followed, about the refugees with their tents in the parks, about the anxious hours the nation spent waiting for full reports of the disaster.

But that is not all they tell. They tell, too, about a city rising again out of the ashes of destruction, about the pluck and vigor of a people setting out to rebuild their lost homes and lost fortunes.

So quickly did the city rise out of embers scarcely yet cold, that the world was astonished. The rest of the nation, having thought fear of new earthquakes would cause people to leave the state, was getting one of its early lessons about the courage and spirit of these far westerners.

It was the spirit that has since built present-day California, and is building now for a greater California of the future.

THE PRESS AND THE SCHOOL

Democracy steers a perilous course these days through turbulent seas where on all sides loom the jagged rocks of various "isms." And at the helm, in America, are two forces principally responsible for keeping the rudder true.

The two forces are the press and the school.

Such, at least, was the belief expressed to interviewers by one of the leading delegates to the conference of more than 700 educators from all parts of California who gathered in San Francisco last week.

"No one can predict where the currents will take us," he said. "But the two greatest forces with the power to keep those currents within the bounds of democracy are the press and the school."

"The function of one is to educate the child. The function of the other is to enlighten the adult. And only through education and enlightenment can the people possess the knowledge, understanding and responsibility to carry the cause of democracy in an ever more complex life."

The teachers and principals and superintendents are alive to their part in shaping the nation's future. Nor is the press, by and large, unmindful of its responsibilities.

May the press and the school work with ever increasing determination to be worthy of their trust as the preservers of democracy.

WAR ON THE WAVES

There'll be war on the waves far out in the Pacific soon. A huge "black fleet" will strike with all the killing force of its 70 mighty ships—battleships, cruisers, destroyers, submarines—and its 230 machine-gun studded, bomb-hurling planes. But a fleet just as strong will be there to engage it, and a fight to rival the battle of Jutland looms. No one will be killed. No one, with reasonable luck, will even be hurt. For it will be only a practice fight between two evenly divided groups of America's Pacific fleet. This week the men o' war steam out of Los Angeles, Long Beach and San Diego harbors, bound for Hawaiian waters. Some time in May they will split and for ten days engage in their great naval chess game.

NATION'S CHIEF TRUE FRIEND OF LABORER

By J. W. MARCHBANK
Pioneer in Frontier Mining V'o k

President Roosevelt is firmly convinced the workers of the country have not obtained sufficient wage increases to compensate for constantly rising prices. His ideas are familiar to citizens of this section on account of the maintenance by Assistant Secretary of Labor Edward McGrady of similar ones when here some months ago.

Correlated with the principle of not allowing the lower income groups to be swamped in a morass made by others is the proposition that government funds must be used, at least partially, for the encouragement of the consumer goods industries.

Minimum wage legislation, which the Supreme Court now countenances in contrast to its former attitude of opposition, is necessitated by the position of the little fellow, who is unable to subsist unless given a helping hand by the federal government. Liberal leaders are much heartened, in fact, by recent decisions of the highest tribunal in the land.

Officials of the Department of the Treasury are inclined to the opinion that before many years the twelve Federal Reserve banks will be taken over by the federal government and the ownership removed from the member banks. The new organization would be somewhat along the lines of the central banks of a number of European countries.

Postmaster General J. A. Farley is optimistic about the Roosevelt Supreme Court reorganization plan. In a talk to his neighbors of Rockland County, New York, the other day, he said:

"I want to say this about the Supreme Court mess. We have let the Senate talk all it wants. The House will take up the question and there will be considerable talk there. After they have all finished talking we shall call the roll. We have plenty of votes to put this over."

Heywood Brown, well known columnist, wrote to the 102 members of the Assembly of the state of New York who had voted against the child labor amendment to the national constitution and expressed the opinion they had participated in the dirtiest day's work ever done in that lower house. Some of the legislators replied to Brown, attempting to explain their action. As the writer remarks, some of the letters from the solons are illiterate and almost

all are the products of men that should be classed as morons.

The brilliant newspaperman offers the suggestion that the electors of the state of New York should make a much closer scrutiny of the men and women who are nominated for the state Legislature. He states that perfectly preposterous people reach the state capital as unregarded pebbles in some particular political landslide. He makes the pertinent proposal that there should be a literacy test for members of the Assembly.

In regard to the following epistle from one of the lawmakers, Brown says he is at a loss to know whether the Assemblyman is filled with remorse for failing the child workers or is not strong in logic:

"My comment on your letter is as follows: There is no act so dirty but what it is soon followed by one a thousand times dirtier. The statement of your organization of the Assembly's action on the child labor amendment, to my mind, comprises that act."

Lesson Sermon Of Christian Science

"Doctrine of Atonement" will be the subject of the Lesson-Sermon Sunday, April 18, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The Golden Text will be: "John seeth Jesus coming unto him, and saith, Behold the Lamb of God, which taketh away the sin of the world" (John 1:29). Other Bible citations will include: "Create in me a clean heart, O God; and renew a right spirit within me. . . For thou desirest not sacrifice; else would I give it: thou delightest not in burnt offering. The sacrifices of God are a broken spirit: a broken and a contrite heart, O God, thou wilt not despise" (Ps. 51: 10, 16, 17).

The Lesson-Sermon will also include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Through repentance, spiritual baptism, and regeneration, mortals put off their material beliefs and false individuality. It is only a question of time when 'they shall all know Me (God), from the least of them unto the greatest'" (p. 242).

Guest Queens Are Invited To Fiesta

Two Oregon queens, a princess and an Alaskan beauty were invited this week to attend and participate with California queens in the Golden Gate Bridge Fiesta in San Francisco, May 27 to June 2, to celebrate the opening of the greatest suspension bridge in the world.

Those invited were the queen of the Portland Rose Festival next June, cave queen and princess of Grants Pass and Miss Marguerite Lee of Nome, recently chosen as the "Miss America" of Alaska.

The fiesta committee promised that the visiting queens would be accorded high honors at the celebration here.

Nineteen of the most beautiful girls in California will rule as queens of the fiesta. One of them will be queen of the Golden Gate and the others will act as her royal court.

The fiesta is to be featured with parades, pageants, sports and other spectacles and the greatest naval review ever seen in an American port.

Seattle Woman Domesticates Wildcat

Mrs. Ethel Palmer of Seattle is pictured with her pet wildcat, Sonny Boy, which she domesticated and trained until he is as docile as an ordinary house "tabby." The woman says she would

rather put out her alarm clock than put Sonny Boy out for the night, because she is afraid he would have the advantage over the regular members of the back fence brigade. Sonny Boy is 10 months old and weighs 25 pounds.

ing carried on here this week has already marked up a high degree of success. Co-operation in the program has come wholeheartedly from citizens.

A city truck has been kept busy every day picking up rubbish which residents deposited near the curb for disposal. Debris was collected and disposed of from the Crocker tract on Monday and Tuesday of this week, from Hillcrest and Mission districts on Wednesday, from Vista Grande on Thursday and from Jefferson Park and Colma today.

Not only has the city been made a cleaner and more attractive place in which to live by having the rubbish removed from basements and yards, but many health menaces and fire hazards have been eliminated.

County Commission Visits Public Park

Recreation facilities at Memorial Park were inspected, last week, on an all day field trip by the recreation commission of San Mateo County.

In addition, the commissioners looked over the site of the reservoir which is soon to be constructed on Peterson Creek to provide an adequate park water supply.

Two hundred picnic tables and 75 fireplaces have been constructed at the park by Emergency Conservation Work camp laborers, the commissioners learned.

Housewives Enjoy Eats At Meeting

The little old fashioned home, 416 Irvington street, was crowded to capacity, this week Monday, with housewives in a scene of bustling activity. It was the regular monthly luncheon and social afternoon of the Experienced Housewife Club. At one o'clock a feed was served by the hostesses, Mesdames Cavagnaro, Woodside, Augustien, Lemon and Meeth. The food, consisting of tamale pie, served with lettuce and salted wafers; three kinds of cake and ice cream, tasted so good that there was very little of it left.

Mrs. John C. Kinsey was business chairman and called the roll by reading the membership list, each one present responding with a household hint or work easier idea. These were later collected to be used as material in the building of the recipe book.

Mrs. Lindorff, chairman of the section on puddings, turned in enough formulas for a chapter, which will soon be ready for the printer. All the committees are working diligently and other sections will soon be completed. Cover design and arrangement of chapters were also discussed.

Mrs. Sidney P. White gave an interesting talk on some of the phases of kitcheneering in England, the land of her birth.

The next get together of Experienced Housewives will be the second Monday in May, or the tenth. Mesdames Vireno, Lindorff, Wadell and Cofer will be hostesses, serving at luncheon sandwiches, salad, pie and coffee. Mrs. Grace Augustien, business chairman will conduct discussions on chapters entitled "Cake and Frostings" and "Pickles, Relishes, Preserves and Jellies." Each member is requested to bring written recipes under each title.

Steel Girders Going Up On High Gym

Contractors this week hoisted steel girders into place as work on the new Jefferson Union High School gymnasium progressed in rapid sequence. Engineers announced that by the end of next week all structural steel work on the gym would be completed.

Concrete was poured this week in forms for floors of the gym lobbies and for the swimming pool. Plumbing is being roughed in the ground-work.

Joe Millett, building inspector for the high school board, and Frank Reilly, engineer for the contractors, are supervising the construction work.

Induct Candidates Into Druid Order

Hillcrest Circle No. 143, United Ancient Order of Druids, held a regular meeting, Monday evening of this week. Arch Druidess Victorine Lombard presided over the meeting. The circle celebrated its eighth birthday by initiating a large class of candidates. The degree team, captained by Catherine Foreman, exemplified the work of the order before a large audience.

The term of Arch Druidess Victorine Lombard has been full of activities. She has taken in three large classes of candidates and has promoted several successful affairs.

As this term draws to a close and the state convention approaches, Hillcrest Circle progresses in its climb to the top of the grand circle.

The local circle is doing all it can to promote the advancement of Grand Officer Madeline Fellows.

Special guests of honor at the meeting included Grand First Bard Sadie Meyer, Grand Trustee Nellie Graves, Grand Auditor Speranza Camos, Past Grand Noble Arch Brother Camous, Grand Trustee of the Grand Grove Ray Barghini and Grand Guardian and District Deputy Madeline Fellows.

TANFORAN APPEALS TO HEARTS OF HORSEMEN

By J. W. MARCHBANK

Tanforan comes to a close tomorrow with the running of a highly interesting card. Following the windup there will be a longer interregnum than usual prior to the fall meeting, as the San Bruno track session will be the second, instead of the first, of the two periods of racing on the peninsula. The fall meeting opens Tuesday, November 16, and continues until Saturday, December 18. It will be of the usual duration of twenty-five days.

With the people of the San Francisco sector in enthusiastic support of the racing furnished at Tanforan, there is every likelihood the fall sport will be as good as that of the meeting having its getaway tomorrow.

Already owners have indicated their intention of returning to Tanforan for the November-December doings. Among the important establishments to be on the scene early is that of H. C. Hatch, owner of Uppermost, the aptly named daughter of Cohort and Summit, and other popular runners such as Ariel Cross and Sweepstaff. The Hatch stallion Sweepster is at Heather Farm, together with a band of fashionably bred broodmares. Both the owner and Trainer William Bringloe are hopeful the California foals will be even better than those of previous years dropped in Canada and Kentucky.

Uppermost, as is well known, is the fleetest mare ever saddled at Tanforan. Unfortunately, she lost her form in the winter, but in her last outing here demonstrated she is again at herself. Her defeat of Happy Bolivar, Exhibit, Silk Mask and others was one of the most thrilling spectacles in the history of the course.

Jockey Sterling Young of the Hatch entourage is just about as valuable an asset to the breeder as his clever gallopers. Young is a good post boy, knows the shortest way around the track, and, above all, understands how to conserve a bit of the energy of his mount for the decisive brush in the stretch.

The feature at the fall meeting will be the renewal of the San Francisco Handicap, with \$10,000 added. The San Francisco promises to attract one of the best fields of the year. The Lassie Stakes for California bred fillies will also be renewed.

School Bus Crashes Down 35 Per Cent

A decrease of 35 per cent in the number of school bus accidents in 1936, and a similar reduction in the number of children injured in these accidents, as compared with 1935, was announced today by the director of the State Motor Vehicle Department.

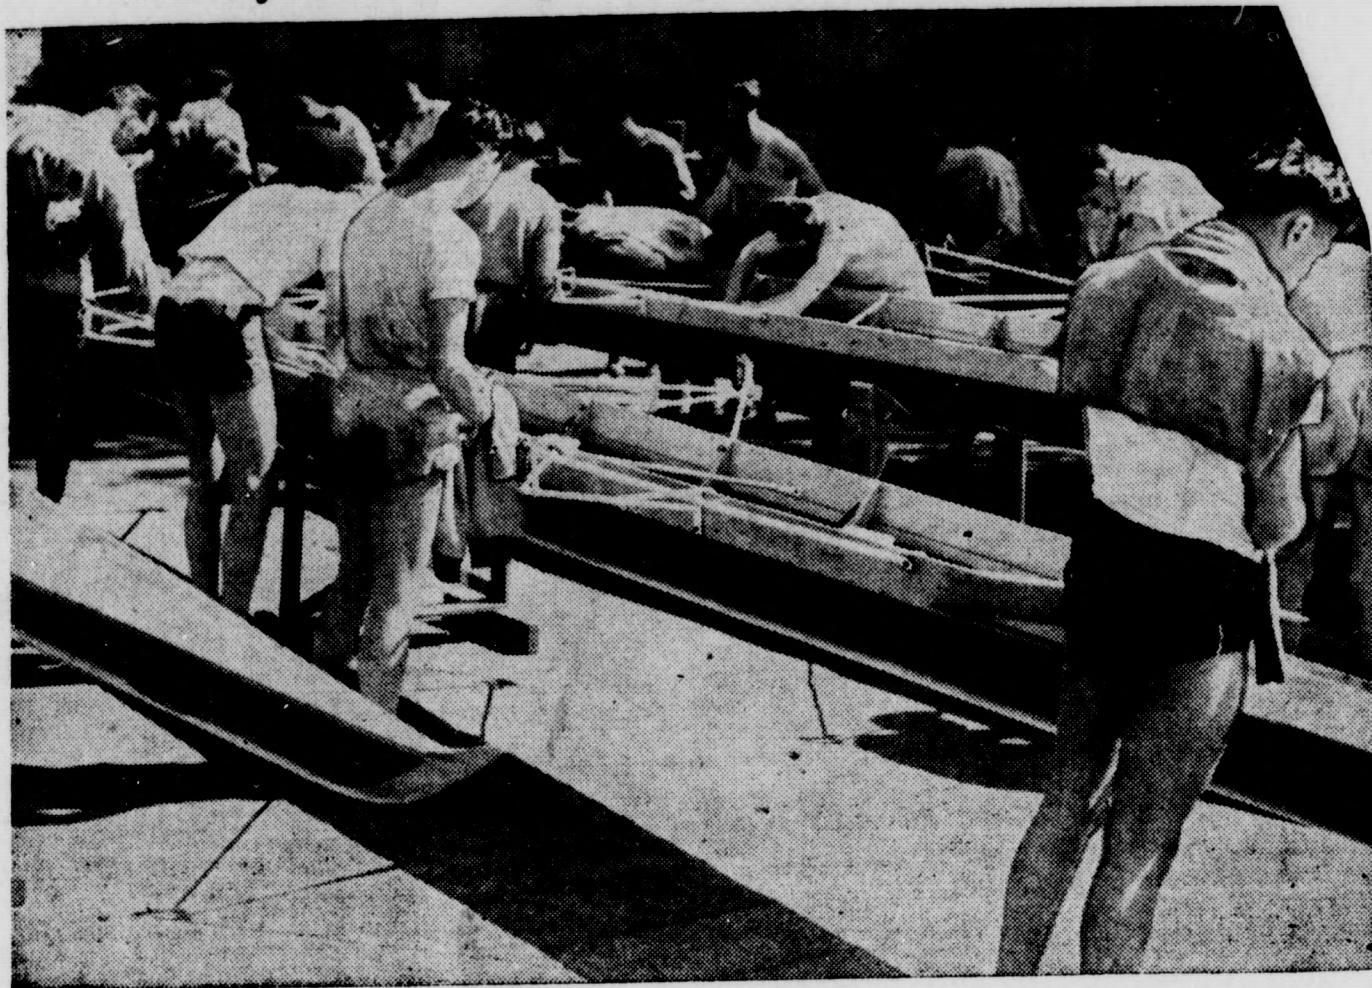

Two thousand school busses, carrying 75,000 children to and from school, were involved in nineteen ac-

cidents, injuring eighteen, with one fatality, as against 29 accidents, 28 injuries and one death during the previous year.

Comparing this reduction of school bus accidents to the more than 11 per cent increase in the total number of highway accidents, the director said that careful examination of school bus drivers and rigid inspection of equipment used by them to transport children was mainly responsible for the reduction.

Framework for three exhibit palaces are now complete on the exposition site north of Goat Island.

Husky Crew Prepares For Annual U. C. Race

Favored to win in the annual University of Washington-University of California crew race, the Washington "Huskies" are pictured as they rigged and prepared their shells for a workout shortly after they arrived in Oakland, Cal. The race will be held in the Oakland Estuary over a three mile course April 17. The California "Bears" sophomore boat is considered faster this season than it has been for some time. The "Huskies" took 25 huge cans of drinking water with them to the California campus.

Plans Are Studied To Finance Fair

A plan for raising \$7,500,000 to finance the Golden Gate International Exposition, devised by a committee of which six prominent San Mateo County residents are members, attracted nation wide attention this week.

The method of dividing San Francisco business, commercial, financial, industrial and professional life into 21 major classifications which are broken down into 240 groups, each with a co-chairman, is being studied by other cities as the best method yet devised for raising funds for civic projects.

Members of this committee include Samuel Kahn of Hillsborough, A. P. Giannini of San Mateo, Herbert Fleishhacker and Roger D. Lapham of Woodside, and J. B. Levison of Atterton. Leland Cutler of Woodside, president of the exposition, is an ex-officio member.

The local merchant can increase his business and keep purchases at home by advertising in The Record.

Native Sons Will Dedicate Bridge

The actual dedicatory ceremonies upon the opening of the Golden Gate Bridge, largest span in the world, will be performed by the Grand Parlor of the Native Sons of the Golden West on May 27, it was reported this week.

The dedication ceremonies will take place at high noon, May 27, on the toll plaza situated on the San Francisco end of the great suspension bridge.

The ceremony of placing a bronze plaque on the bridge will be performed by the officers of the Grand Parlor of the Native Sons.

The 40 foot wing of a new plane can be folded back against the sides of its fuselage, enabling the craft to be stored in an ordinary garage.

California Teachers Elect Officers

Officers and directors of the California Teachers Association for the coming year were announced this week following the completion of the annual meeting of the association, embracing a membership of 36,000 teachers of the state.

Dr. John A. Sexson, superintendent of schools of Pasadena, was re-elected president; John F. Brady, assistant superintendent of schools of San Francisco, was re-elected vice president and Roy W. Cloud was re-elected state executive secretary and treasurer.

The closing session of the annual meeting was featured by addresses on educational subjects by Dr. Robert Gordon Sproul, president of the University of California, and by Dr. Walter F. Dexter, state superintendent of public instruction.

CMTC Training Camp To Start July 1

The Citizens Military Training Camp at the Presidio of Monterey will be held this summer, July 1 to 30, under the command of Colonel Troup Miller, Eleventh Cavalry.

Training will be offered in the basic, red, white and blue courses of the infantry, cavalry and field artillery branches. Approved blue course graduates are eligible for second lieutenant commission in the reserve, however a trainee at CMTC is not obligated for future service to the army by reason of such training. The camp athletic program this year is to be one of the best, under competent directors.

Army personnel supervising the training this year will be regular army officers from the Thirtieth Infantry, Eleventh Cavalry and Seventy-sixth Field Artillery and officers from the Three Hundred and Sixty-fourth Infantry, a Los Angeles reserve regiment commanded by Colonel Dwight M. Green of that city.

Young men of good character interested in attending CMTC this summer are urged to contact the county representative for CMTC, F. A. Bloom, City Hall, Park Road, Burlingame, Calif., for further information and qualifications without delay, as a policy of first come, first served, is in effect with regard to enrollment.

County Road Tax Levy May Be Made

Return of a road tax was advocated recently by the Board of Supervisors as a means of making possible needed improvements to the San Mateo County highway system.

Supervisors Fred E. Beer, James S. James and Alvin Hatch appear in sympathy with such a levy, explaining a 5 or 10 cent tax would take care of the needed expenditures. They pointed out that before the county shared the gasoline tax there was a road tax that was as high as 50 cents.

The road tax was advocated after County Engineer Urban S. Marshall appeared before the board for approval of an \$80,000 bridge construction program. Fifty-five per cent of the cost would be borne by the government under the Farm to Market Road program, he said.

The 10 bridges that Marshall seeks to replace are between 25 and 57 years old. He said they are all unsafe and liable to cause the county to be confronted with a big damage suit.

Jeff And S. M. Hi Ball Team Tie

Jefferson Indians and the San Mateo nine played a snappy ball game, Tuesday afternoon of this week. Scheduled for seven innings, the game ran on to eleven, only to end in a scoreless tie.

The local nine won its first two P. A. L. contests and bid strong but in vain for victory Tuesday. Jefferson had an opportunity to score in the first inning, but Murray popped to the Matean pitcher and a runner on third failed to score.

An unexpected and exciting moment came in the seventh inning when Calahan of San Mateo slugged a ball far over the head of Right Fielder Owens. It looked like a home run and San Mateo rooters went wild.

Owens recovered the ball rapidly and a flashy relay to Plate to Murray and to Strassburger put the runner out at home.

Fans saw one of the greatest pitching battles on any PAL diamond this season.

Eleven persons were killed in the crash. "A detailed investigation of the wreckage showed no evidence of failure in the air of the airplane structure, engines or propellers," the bureau reported.

TRAILER LOAD

Trailers, particularly if heavily laden, increase the load on rear axles, bearings, springs and other rear parts of the towing automobile, according to experts.

For this reason motorists drawing trailers should be careful to maintain the proper amount and grade of lubricant in the rear axle housing at all times.

NOTES ON OUR ELEMENTARY SCHOOLS

Under the supervision of Miss M. Vireno a program in observance of Pan American Day, April 14, was presented by students of the Woodrow Wilson School, Wednesday of this week.

The program included group singing led by Robert Dyer, salute to the flag, an address, "The Purpose of Pan American Day," by Donald Bittencourt and an address by Nadine O'Brien on "Unity Is the Strengthening Factor of the Americas."

The fifth grade at Woodrow Wilson School, under the direction of Mrs. Burns, is studying early pioneer life. As an objective activity in connection with the study the pupils made old fashioned hand dipped candles.

Robert Ruff described the candle making in an essay, "How We Dipped Candles." He wrote: "One day this week our class decided to dip candles as the colonial people did. Our teacher melted the wax and the children took turns at dipping. We used cotton string, as the wax sticks to cotton easier. The teacher melted two pans of wax, one pan full of plain wax, the other had coloring in it. The pupils could get either white or red wax for their candles. We also made molds out of cardboard tubes and poured some candles."

America's finest 6-cylinder car!

STUDEBAKER DICTATOR

THE Dictator's air-curved, steel-reinforced-by-steel body glistens in a paint finish 12 coats deep! Its luxurious, roomy interiors are a triumph of famous Helen Dryden's designing. It's the world's first six to offer the sensational economy of the Fram oil cleaner and gas-saving automatic overdrive... the world's first six to offer the automatic hill holder plus feather-touch hydraulic brakes... the world's only six with non-slam doors that close lightly, tightly and silently on revolutionary new rattle-proof rotary latches. And it's built of the finest materials by the world's greatest group of veteran motor car craftsmen. But see it... drive it... compare it... and then try to sell yourself any other six. Studebaker's C. I. T. budget plan offers low time payments.
